**LET'S LEARN VARIOUS  
CHART PATTERNS**

# DOUBLE TOP WITH CANDLESTICK CHART

## DOUBLE TOP PATTERN

A double top is an extremely bearish technical reversal pattern that forms after an asset reaches a high price **two consecutive times** with a moderate decline between the two highs. It is confirmed once the **asset's price falls below a support level** equal to the low between the two prior highs.

# DOUBLE BOTTOM WITH CANDLES (CHART)

## DOUBLE BOTTOM PATTERN

A double bottom is an extremely bullish technical reversal pattern that forms after an asset reaches a low price **two consecutive times** with a moderate support between the two lows. It is confirmed once the **asset's price go above a resistance level** equal to the high between the two prior lows.

# TRIPPLE TOP WITH CANDLESTICK C RT

## TRIPPLE TOP PATTERN

A tripple top is an extremely bearish technical reversal pattern that forms after an asset reaches a high price **three consecutive times** with a moderate decline between the three highs. It is confirmed once the **asset's price falls below a support level** equal to the low between the three prior highs.

# TRIPPLE BOTTOM WITH CANDLESTICK PART

# TRIPPLE BOTTOM PATTERN

A tripple bottom is an bullish technical reversal pattern that forms after an asset reaches a low price **three consecutive times** with a moderate support between the three lows. It is confirmed once the **asset's price go above a resistance level** equal to the high between the three prior lows.

# HEAD AND SHOULDER WITH CANDLESTICK CHART

# HEAD & SHOULDER PATTERN

A head & shoulder pattern is a chart formation that appears as a baseline with three peaks, where the **outside two are similar in height and the middle is highest** & breakout confirmed once asset breaks support level & it **resembles with human head and shoulder** shape thats why it is called as head & shoulder

# INVERTED HEAD AND SHOULDER CANDLESTICK CHART

## INVERSE HEAD & SHOULDER

An inverse head and shoulders is similar to the standard head and shoulders pattern, but inverted: with the head and shoulders top used to predict reversals in downtrends. The price falls to a trough and then rises; the price falls below the previous trough and then rises again; finally, the price falls again but not as far as the second trough. Once the final trough is made, the price heads upward & breaks resistance

## RISING WEDGE WITH CANDLESTICK CHART

## RISING WEDGE PATTERN

The rising wedge is a technical chart pattern used to identify possible trend reversals. The pattern appears as an **upward-sloping price chart featuring two converging trendlines**. It is usually accompanied by decreasing trading volume. breakout confirmed once it break support trendline goes downward

## FALLING WEDGE WITH CANDLESTICK CHART

# FALLING WEDGE PATTERN

The falling wedge pattern is characterized by a chart pattern which forms when the market **makes lower lows and lower highs with a contracting range.** When this pattern is found in a downward trend, it is considered a reversal pattern, breakout confirmed once it breaks resistance trendline and goes upward direction

## BULLISH RECTANGLE WITH CANDLESTICK CHART

## BULLISH RECTANGLE

The bullish rectangle is a continuation patterns that occur when a price pauses during a strong trend and temporarily bounces between two parallel levels before the trend continues, breakout confirmed once it break its resistance & goes in upward direction

## BEARISH RECTANGLE WITH CANDLESTICK CHART

## BEARISH RECTANGLE

The bearish rectangle is a continuation pattern that occurs when a price pauses during a strong downtrend and temporarily bounces between two parallel levels before the trend continues, breakout confirmed once it break its support & goes in downward direction

## BULLISH FLAG WITH CANDLESTICK CHART

## BULLISH FLAG PATTERN

The bullish flag formations are found in stocks with strong uptrends and considered good continuation patterns. They are called bull flags because the pattern resembles a flag on a pole. The pole is the result of a vertical rise in a chart & the flag results from a period of consolidation, breakout confirmed once it breaks from upperside of flag

## BEARISH FLAG WITH CANDLESTICK CHART

## BEARISH FLAG PATTERN

The bearish flag is an upside down version of the bull flag. It has the same structure as the bull flag but inverted. The flagpole forms on an almost vertical panic price drop as bulls get blindsided from the sellers, then a bounce that has parallel upper and lower trendlines, which form the flag, breakout confirmed once chart break from lower trendline.

## BULLISH SYMMETRICAL WITH CANDLESTICK CHART

## BULLISH SYMMETRICAL TRIANGLE

A bullish symmetrical triangle is a bullish continuation chart pattern. The pattern is formed by **two converging trend lines that are symmetrical in relation to the horizontal line**. The top line is a bearish trend line creating the resistance, breakout confirmed once chart break resistance & goes upward direction

# BEARISH SYMMETRICAL WITH CANDLESTICK CHART

## BEARISH SYMMETRICAL TRIANGLE

A bearish symmetrical triangle is bearish continuation chart pattern. The pattern is formed by two converging trend lines that are symmetrical in relation to the horizontal line, lower support line is bullish trendline, breakout confirmed once it break support & goes in downward direction

# CUP & HANDLE WITH CANDLESTICK CHART

# CUP & HANDLE PATTERN

A cup and handle is a technical indicator where the price movement of a chart resembles a "tea cup" followed by a downward trending price pattern. This drop, or "handle" is meant to signal a buying opportunity to buy a stock, **breakout confirmed once it break neckline/resistance** & goes upward

# INVERTED CUP & HANDLE WITH CANDLESTICK CHART

## INVERTED CUP & HANDLE PATTERN

The inverted Cup and Handle pattern forms an upside-down cup and handle. The pattern is formed after a pullback from a swing low before a sell-off to the prior swing low and stalls due to underlying support. The stock then stalls much like a bear flag with slight upward pressure before breaking down below support.

# ASCENDING TRIANGLE WITH CANDLESTICK CHART

## ASCENDING TRIANGLE

It is formed as a right-angled triangle with a resistance and a trendline of higher lows, **resistance does not allow the chart to move more upward, higher lows show that the buying pressure has increased.** pattern clearly indicates that the market moves higher as the higher lows are formed heading toward the resistance line. **it can break from any direction**

# DESCENDING TRIANGLE WITH CANDLESTICK CHART

## DESCENDING TRIANGLE

It is formed in the downtrend and indicates the continuation of the downtrend. formed as a downward sloping triangle with support and a slope of lower highs. support does not allow the chart to move more downward, lower highs show that the selling pressure has increased. **pattern clearly indicates that the market moving lower as the lower highs are formed heading toward the support line. it can break from any direction**

# **LET'S LEARN ABOUT CANDLESTICK PATTERNS**

it happens when both the buyers and sellers are fighting but no one wins to take market one side. it has very small body with long shadow.

# **TRADING PSYCHOLOGY TIPS**

## **#1 AVOID FOMO ( FEAR OF MISSING OUT )**

YOU SHOULD NOT TRY TO CATCH EVERY  
TRADE, YOUR GOAL AS A TRADER IS  
NOT TO CATCH EVERY TRADE BUT TO  
FOCUS ON THE QUALITY TRADES  
WHERE THE RISK REWARD RATIO IS IN  
YOUR FAVOUR. DAY TRADER DOESN'T  
MEANS YOU HAVE TO TRADE EVERY  
DAY, IF THERE IS NO BREAKOUT /  
SIGNAL THEN RELAX.

## **#2 MOVE ON FROM BAD DAYS**

EVERY TRADER HAS BAD DAYS  
WEEKS AND MONTHS. ACCEPT IT,  
MOVE ON AND PREPARE FOR NEXT  
TRADE  
SUCCESSFUL TRADERS OVERCOME  
ADVERSITY.

# **TRADING PSYCHOLOGY TIPS**

## **#3 DONT CARRY YESTERDAYS BAGGAGE**

EVERY DAY START WITH FRESH  
EMPTY MIND WITH CLEAN SLATE,  
DON'T LET ONE TRADE INFLUENCE  
ANOTHER TRADE APPROACH EVERY  
TRADE AS IF IT'S THE START OF THE  
DAY.

## **#4 DON'T DO OVER-TRADING**

ARE YOU CONTROLLING YOUR TRADING  
OR TRADING TERMINAL IS  
CONTROLLING YOU.  
TRADING CAN BE ADDICTING AND ITS  
EASY TO STUCKED INTO STRESSFUL  
TRADES. FOCUS ON WORK LIFE  
BALANCE & MAKE SURE YOU ARE  
BUILDING SUSTAINABLE HABITS.
